Public Health Director Comment
Public Health Director Joshua Swift commented, "For several months we advocated for more testing in areas of Forsyth County that need it most. I am happy to see more testing being made available, especially in East Winston. More testing locations in areas where health disparity exists will continue to grow over the next few weeks. While testing is important, it is one moment in time. Please keep in mind, in addition to testing, wearing a mask and social distancing represent some of the most effective ways to stop the spread of COVID-19. "
