#### Public Health Director Comment

Public Health Director Joshua Swift commented, "Contact tracers reach out to people who have tested positive for COVID-19 or who have been near someone with COVID-19 to help slow the spread. People should answer the call when a contact tracer reaches out. If you prefer to screen your call, the contact tracer will leave a message, but please immediately call them back. The tracer will not share anyone's name or personal information. This information is confidential and will remain private, nor will the contact tracer ask for a social security number or financial information."
